

HEXTIO

The compact and lightweight Hextio is the ideal plug and play air decontamination unit for individual use. Once the air has passed through the unit and is sanitised, the directional hood at the top of the Hextio ensures that the clean air flows directly into the individual's breathing space, regardless of their surroundings.

Key features

- Controls airflow to optimise sterilisation in the breathing space
- Deactivates viruses and bacteria with unequalled efficiency
- Kills Coronavirus in the Air*
- Proven and tested to kill:
 - Polio - 99.9999% kill rate
 - Adenovirus - 99.9999% kill rate
 - Influenza - 99.9999% kill rate
 - Coronavirus DF2 - 99.9999% kill rate
- Effectively removes noxious gases and larger particles such as dust, dander and other allergens
- Free standing
- Certified Ozone Free

*When Independently tested against Coronavirus DF2 (a surrogate for Coronavirus), Adenovirus, Influenza and Polio, the unit was found to kill **99.9999%** of viruses on a single air pass

Benefits

User Experience

Bring peace of mind to your colleagues, customers and visitors that they are breathing clean air
